

Assembly of Components Made by Sicatron

Our Component assembly delivers custom-fit, ready-to-install systems – efficient, process-reliable, and quality-tested.

 **Precisely Assembled**

 **Delivered Ready for Installation**

 **Made in Germany**

Tailor-Made Component Assembly for Low and High-Volume Manufacturing

Our Component assembly ensures the highest quality – whether for small or large production volumes. We develop flexible solutions tailored to your specific needs, from prototyping to series production.

Custom Component Assembly

We offer tailor-made Component assembly to meet your technical requirements:

- Component Assembly
- PLC Control Panel Engineering
- Contract Manufacturing
- In-House Cable Assembly
- Industrial System Solutions
